- Vicky seconded the motion as she and Krissie are the only ones who can vote
- Vicky called the motion
- Motion carries and approved

Advisory Report from Lucas

-Hard to track progress this year however this year teachers have been focusing upon their top 5 students who are at risk with personal involvement to parents and students and reports to administration

- Safe UT and social and emotional and mental health
- this year we have seen a continued decline in those numbers
- we discussed ACT prep
- social emotional learning
- intervention and prevention
- mental health supports

Land trust money goes to salaries for Advisory teachers which supports academics, social emotional learning and mental health and college and career readiness.

-We would like to continue with this plan as it is a front loaded grant and we would like to continue to be proactive in our approach to the Multi-Tiered Systems of Support (MTSS) within our school.

Vicky asked if anyone has questions?

Krissie had a question about this year...what is changing with the Advisory format. Lucas answered that Advisory will still be on Wednesdays asynchronous to be equitable for those students not attending in person.

Joann asked about surveys. We discussed SHARPS survey, CTE surveys, and the anecdotal in class surveys and advisory self reflections.

Vicky asked to hold off approving next year's plan until we have a budget outline to go with the plan and have it in writing. Lucas said he would send the budget to everyone.

Vicky asked for open discussion and thanked everyone for their time on the committee.

No thoughts.

Next meeting will be in March

-we will discuss Comp Guidance Review

-SHARP survey

Meeting adjourned at 2:59pm by Vicky
